

# OUSSAMA BOUFI

Frontend Developer

+212 611852414

oboufi88@gmail.com

Safi, Morocco

## SUMMARY

Frontend Developer with 4+ years of experience crafting high-performance, user-centric web applications. Specialized in React/Next.js ecosystem with expertise in performance optimization, modern UI/UX patterns, and enterprise-scale applications. Successfully launched Blutto, a SaaS productivity platform serving 25+ concurrent users with 99.9% uptime. Proven track record of improving SEO performance by 50%+, reducing load times by 30%, and increasing user engagement across fintech and healthtech platforms.

## EDUCATION

Independent Learning Program – Web Development

2020–Present – Practical Projects & Online Certifications

## SKILLS

Frontend Development: React, Next.js, TypeScript, JavaScript, Tailwind CSS, Framer Motion

Backend Development: Node.js, Express.js, RESTful APIs, WebSocket, NextAuth.js

Database Systems: MongoDB, PostgreSQL, MySQL, Redis

DevOps & Deployment: Git/GitHub, Vercel, CI/CD Pipelines

Security & Performance: JWT/OAuth2.0, HTTPS, Data Encryption, Performance Optimization, Caching

## CERTIFICATIONS

React Performance Optimization | Codecademy | 2024

Advanced TypeScript | Udemy | 2024

Web Accessibility (WCAG 2.1) | LinkedIn Learning | 2024

Frontend Masters: Advanced React Patterns | 2024

## PROFESSIONAL EXPERIENCE

### Frontend Developer

Blutto – Team Productivity SaaS Platform

2024 - Present | Remote | [blutto.com](#)

- Built a complete SaaS platform frontend using React/Next.js, serving 25+ concurrent users with 99.9% uptime
- Built responsive, enterprise-grade UI featuring real-time Kanban boards, analytics dashboards, and workflow automation interfaces
- Implemented advanced performance optimizations achieving sub-200ms response times through code splitting, lazy loading, and intelligent caching
- Designed tiered pricing interface with Stripe integration, supporting Free/Pro/Business models with seamless subscription management
- Developed real-time collaboration features including live chat, drag-and-drop task management, and instant synchronization across team members
- Integrated third-party APIs (Slack, Google Calendar, GitHub) with custom UI components, reducing manual coordination by 60%

### Frontend Developer

Ibcove (Fintech Platform) | 2024 Mar - 2024 Aug

- Engineered performance optimization strategy reducing critical rendering path by 30% through code splitting, dynamic imports, and CDN caching, delivering 3.5s faster load times and 15% user acquisition improvement
- Implemented SEO-optimized rendering using Next.js SSR/SSG, structured data, and WebP compression, boosting organic traffic by 24% and improving conversion rates by 12%
- Spearheaded jQuery to React/TypeScript migration with strict typing patterns, reducing production bugs by 22% and deployment cycles by 40%
- Built responsive fintech dashboards with real-time data visualization, secure transaction interfaces, and compliance-ready user experiences
- Developed component-based architecture ensuring scalable, maintainable code across multiple fintech products
