Full-Stack Developer

Safi, Morocco

SUMMARY

Full-Stack Developer with 4+ years of experience specializing in the React/Next.js ecosystem. Currently leading technical development at Propely, focusing on modular architecture and high-performance system design. Proven record of reducing critical rendering paths by 30%, improving SEO efficiency by 50%+, and consistently achieving sub-200ms response times.

EDUCATION

Independent Learning Program

Specialized in Full-Stack Developer & System Design.

Focus: Next.js Internal Patterns, Database Modeling, and Scalability.

- Outcome:** Successfully architected and deployed 3+ production-grade platforms.

SKILLS

- Frontend Developer:** React, Next.js, TypeScript, JavaScript, Tailwind CSS, Framer Motion, Redux Toolkit, Zod.
- Backend & Data:** Node.js, Express.js, RESTful APIs, WebSocket, PostgreSQL, MongoDB, Prisma ORM, NextAuth.js, Stripe Integration.
- Performance & DevOps:** Core Web Vitals Optimization, CI/CD Pipelines, Vercel/AWS Deployment, Caching Strategies, Git/GitHub.
- Professional Strengths:** System Architecture, Technical Mentorship, Modular Code Design, Scalable SaaS Infrastructure.

CERTIFICATIONS

- React Performance Optimization | Codecademy
- Advanced TypeScript & Design Patterns | Udemy
- Advanced React Patterns | Frontend Masters

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Propely | Aug 2025 – Present

- Architected a scalable, multi-tenant SaaS infrastructure using Next.js, implementing a micro-frontend approach that allowed the platform to scale without increasing technical debt.
- Optimized infrastructure to maintain sub-200ms server response times and consistent performance even under peak concurrent loads.
- Standardized the development workflow by enforcing strict TypeScript schemas and automated testing, increasing team feature delivery velocity by 20%.

Full Stack Developer

Nexus-Commerce (E-commerce platform) | Nov 2024 – Jul 2025

- Engineered core UI features using Next.js and TypeScript, contributing to a 30% improvement in overall page performance.
- Streamlined secure checkout workflows and automated invoice generation in close coordination with backend and payment teams.
- Optimized product discovery by building advanced filtering logic and search indexing, significantly reducing user friction.
- Achieved 95+ Core Web Vitals scores by implementing aggressive image optimization and strategic lazy-loading techniques.

Frontend Developer

Ibcove | Mar 2023 – Sep 2024

- Contributed to the migration of legacy jQuery modules to a modern React/TypeScript stack, helping reduce production bugs by 22%.
- Implemented SEO-focused features using Next.js (SSG/ISR), resulting in a documented 52% increase in platform visibility.
- Developed interactive financial dashboards and real-time transaction tracking components using secure API protocols.
